Dear Judge :

This letter is submitted pursuant to K.S.A. 22-3303(d). The above-named defendant was ordered to receive competency treatment and evaluation pursuant to K.S.A. 22-3303. Competency restoration education was provided by the treatment provider, , from through , while the defendant was in (jail or other setting). (Rationale: i.e. The defendant has not benefitted from attending competency restoration sessions and will require more intensive treatment to attain competency; The defendant has refused to participate in competency restoration sessions; etc.) It is the opinion of the treatment provider that the defendant should be admitted to a state psychiatric facility when a bed is available for the defendant.
